

ONSITE TRAINING & DEMONSTRATIONS WITH SECA

The SECA Academy was established with a clear mission: to provide our customers with continuous support and service in the means of education and qualifications resulting in solutions to help our customers get the job done efficiently with the skills and knowledge to ensure they are qualified to meet Industry Standards

SECA Academy our specialist training packages service the Industrial Services, Wastewater Management, Plumbing, and Drainage sectors. We are able to meet strict WHS requirements, KPIs, schedules, quality standards, and budgeting considerations for all training requirements, large or small.

Our comprehensive training programs ensure that every participant not only understands the functionality of our products but also adheres to industry standards, promoting both safety and excellence in their work..

Through hands-on training sessions and detailed product demonstrations, we strive to empower our students with the qualifications necessary to excel in their fields. Our commitment to ongoing education underscores our dedication to customer satisfaction and the long-term success of those who invest with the SECA team.

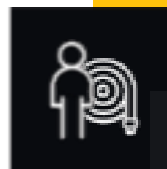

Training provided by Asset Training RTO No. 91255.

KNOWLEDGE IS POWER WITH SECA ACADEMY

Allows those in the industry to stay at the forefront of the latest technology with ongoing support and training, both on and offsite. Ensuring clients are using the best tool for the job is a priority of our education program.

Experience a demonstration of equipment in action using SECA's indoor fully working pipe and drain system, with a safety-first process.

Enjoy peace of mind with our tried and tested quality guarantee, ensuring maximum productivity and minimal downtime by using products which work first time, every time.
